SUMMER SAFETY

As the summer approaches, children will be engaging in outdoor activities, such as biking and swimming, much more frequently. Along with these activities comes the risk of things such as sunburn and dehydration. It is important that these activities are done safely in order to avoid unnecessary injury. Below are links to websites that offer tips and information on how to stay safe while still having fun in the sun this summer!

FARMER'S MARKETS/ COMMUNITY GARDENS

Farmer's Markets are a great place to buy locally grown fruits and vegetables. Community Gardens are a way to grow your own fruits and vegetables while getting involved in the community and helping to beautify our city. Below is a link to Farmer's Markets located in all 8 counties of Western New York and a link to the Grassroots Gardens WNY Campaign.
