

# Oishei Healthy Kids

Formerly known as the Children's Health Home of Western New York (CHHWNY), we are now officially **Oishei Healthy Kids**! We are working hard to get ready for our roll out on December 1, 2016. Contracting with the CMA's will happen during the months of August and September.

We would like to welcome our new partners, **Cattaraugus County Department of Community Services** and **Chautauqua County Department of Health and Community Services**. We look forward to working with everyone very soon!

## Back to School

As we gear up for a new school year, it is important to make sure your children have all of the required vaccines. Any child starting public, private, or parochial school in New York State must be immune to diphtheria, tetanus, pertussis, measles, mumps, rubella, poliomyelitis, hepatitis B, and varicella in accordance with Advisory Committee on Immunization Practices (ACIP) recommendations (NYSDOH). Below is a link to a full chart outlining which vaccinations are required and when.

Enjoy the rest of your summer!
